ALLEGATIONS AGAINST THE NAGASAKI POLICE.

A PUBLIC MEETING.

The Nagasaki Barristers' Association has continued its investigations into the alleged wrongful detention of people by the Nagasaki police, says the "Nagasaki Press" of March 28. It should be mentioned here that the allegations are directed entirely against the officials of the Nagasaki Police Station, Hamano-machi, of which Mr. Takeo is the Superintendent.

At a meeting held on Saturday last a committee appointed by the Association reported on two specific cases. A jinrikisha man, referred to in a previous report, had been detained for three days at the Nagasaki station and then released without explanation. The committee interrogated the police and was informed that the police were so busy during the first two days that they could not enquire into his guilt but on the third day found that he had been arrested in error.

The second case was that of a manager of a business house of questionable character who was detained for ten days at the Nagasaki Station. According to the man's own statement he was told by the Superintendent on being released that he had been imprisoned as a warning against engaging in business pursuits of a doubtful nature.

On Wednesday evening a public meeting was held at the Teizozuru Theatre for the purpose of protesting against arbitrary police procedure. It was organized by some barristers and by the local Japanese journals, excepting the Nagasaki Shimbum.

Mr. Murano, President of the Barristers' Association, made an opening address in which he stated the objects of the meeting. He was then nominated as chairman and immediately called upon a journalist to propose a resolution to the following effect:

"The inhabitants of Nagasaki urge the dismissal of Mr. Takeo, Superintendent of the Nagasaki Police Station, and recommend the reorganization of the Nagasaki Police force."

After speeches had been made in support of the resolution it was put to the meeting and declared to have been carried unanimously. Further speeches were made by Mr. Suzuki, Proprietor of the Toyo Hindon, and two other journalists and five barristers, in which the maintenance of the people's rights were urged and the police, Mr. Takeo in particular, were strongly criticized.

The Universal Remedy for Acidity of the Stomach, Headache, Heartburn, Indigestion, Sour Eructations, Bilious Affections.

A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out.

Science has taught us wisdom. The evil spirits exist still. We call them "Disease Germs," and they also must be cast out. Once lodged in the stomach or intestines, fever with its hallucinations, or biliousness with its aches and pains, is the result.

ENO'S FRUIT SALT

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new life, stimulates the mucous membrane to a healthy action, and cleanses and invigorates the whole digestive tract.

It may be safely taken at any time by young or old.

It is very effective in the early stage of Diarrhoea by removing the irritating cause.

Be prepared for emergencies by always keeping a bottle in the house.

How they Cure and Prevent it

Everyone who suffers from Sore Throat should test the wonderful remedy and preventive which is used by the Right Hon. Arthur J. Balfour (1), Sir Gilbert Parker (2), and other famous M.P.'s, as well as by great lawyers like Lord Justice Buckley, celebrated singers like Madame Adelina Patti (3), and leading actors like Mr. H. B. Irving (4).

Who could ask for more convincing and trustworthy witnesses? They are, moreover, particularly prone to catch Sore Throat because they are often in hot crowded places where the germs which cause Sore Throat are.

Wulff's Formamint—the remedy which they and hundreds of their colleagues all rely upon—kills these is why it is prescribed by over 7,000 medical men for curing and preventing Sore Throat.

Madame Kirby Lunn (6), the famous concert singer, writes: "I think very highly of Wulff's Formamint Tablets, which I have found to be most valuable for the throat."

Mr. Ben Davies (7), the famous tenor, writes: "I find Wulff's Formamint excellent for the voice and most soothing to the throat. It is at the same time such a pleasant and effective disinfectant that I am never without a bottle."

Sir George Alexander (8) writes: "Formamint has been my constant companion during the past winter and I have found it a dangerous enemy to the influenza fiend."

Mr. H. B. Irving (8) writes: "On every occasion on which I have used Wulff's Formamint Tablets I have found them most beneficial."

Among other distinguished people who have vouchsed for Wulff's Formamint may be mentioned: The Hon. CINEMA SILLNESS.

A PUBLICAN'S REMARKABLE VOW.

(Continued from page 3.)

plots. It is without the greatest interpreter of all emotions—the human voice. The plot of a cinema play must be utterly simple and every action instantly obvious. But if the cinema cannot give us half shades it can surely give us full shades. And, leaving drama alone, we are all sick of those everybody-running-and-falling-over-everybody-else "comics," whose epithet should be that they never made the audience laugh.

I cannot think that these audiences of intelligent people of the world want to see, for ever, as in a nightmare, these roughriders pursuing the gasping hero or villain through that bush that we so know by heart, or that devoted husband and wife who are for ever being parted by one of these reading only half through a letter, and for ever being reconciled (at a bed of sickness) by a self-conscious infant; or, worst of all, that foreign gentleman who, because he has got a new hat, goes out to bite policemen!

This is an attack on those honest and worthy enemies of the blue devils of idleness and boredom, the popular picture palaces. It is only a little, gentle urging. There is a tremendous future before them and tremendous possibilities, educational as well as recreative.

There is so much the camera can do: there is so much happiness all day in real life that its films can record. It need not fear to be banished so long as it keeps to its rights. There is nothing we like to see so much ourselves and our familiar places. Augustus Harris knew this when he brought his real horses, and humans, and every-day life on to the stage. The modern journalists know it when it first talked to the ordinary man and woman of their eating and drinking and love-making and clothes.

And, lastly, there is so much in the wide world—even the jerkily earthen cinema gives us much more of it than its smooth successors of today—Ninjas leaping over its ledges—the wild life of the jungle—the glory of the Alps—the Fleet, half awash curving in the face of a sea-wester—the kaleidoscope people of an Empire at work and play—the pageant of the East, like a mosaic in motion! And tragedies and comedies, too, we want nobly done—the cinema is worthy of it—with a little less rush and restlessness and obviousness, of gesture—and ed! my masters, I pray of you a little less rolling of that torzifer of babes, sucklings, and grown men—the cinema eye!

If you happened to be late your meals will be hurriedly and promptly served just the same. Only at THE ALEXANDRA DRA CAFE.

A Lay Preacher

Brain Fag, Nervous Exhaustion—

Just a change of opinion was enough to give Mr. W. King his present prosperity, for he realised in the nick of time that his way was not curing his brain fag and nervous exhaustion, so he tried the Phosferine way. Mr. King's method was to ignore his despondency and feeling of collapse, and persuade himself there was nothing unusual in the painful fatigue he the lightest effort to work cost him, until, as he steadily got worse, he resolved to drop his own opinion and see what Phosferine could do. The result was so astonishingly beneficial, even after a few doses, that the brain fag and nervous exhaustion ceased entirely, enabling him to do more work than before and yet not feel the strain. This remarkable advantage is seen in the extraordinary energy and vigour of Mr. King's public speaking, and so amazingly have his prospects improved since his speedy recovery, that he declares he had to come forward with the evidence of the magnificent benefit he derived from Phosferine:

Quite Gone—Never Return.

Mr. W. J. King, School House, Trumpington Road, Forest Gate, E., writes: "I am writing to add my name to the list of those people who have found Phosferine to be the Greatest of all Tonics. Some time back I was very much run down through overstrain brought on by incessant bodily exercise and mental application. The usual tendency of mankind is to give up some of their work, have a rest, and at the same time take some medicine, so I endeavoured to keep going on without seeking advice, but as I was getting worse I found that policy would not do. Having heard many friends speak about Phosferine, and one in particular offering me some, I decided to give it a trial. Purchasing a 1/6 bottle, I began to doctor myself. The result not only astonished me, but others also noticed how much better I was, even although I had only taken a few doses. I found I could do the same amount of work easier, and at present am able to do more than before and yet not feel the strain. I have a good deal of public speaking, and I find an occasional dose of Phosferine is a great benefit."—May 26, 1912.

ADMIRALTY AND THE SHORTAGE OF OFFICERS.

Appeal to Public Schools.

In addition to the steps already taken to meet the shortage of officers in the navy (i.e., the giving of commissions to "rankers" and the providing of a supplementary list to which Royal Naval Reserve officers are to be admitted), the Admiralty announce further emergency measures. They propose to make a special entry of naval cadets from public schools to the number of not more than 30 per year. The full details of the scheme are given below.

A special memorandum issued by the Admiralty explains the causes which have led to the present shortage of naval officers—the main condition being that while it takes two years to build a battleship, it takes about nine years from the time at which a cadet enters Osborne to make a naval lieutenant. The greatly augmented demand for officers caused by recent increased requirements will be met in part by promotions from the lower deck, and in part by the absorption of officers of the R.N.R. from the mercantile service, but estimates which have been prepared of the numbers of lieutenants likely to be wanted from 1916 to 1920 show that, after allowing for these supplements, there will still be a deficiency.

It is proposed to make good this deficiency by means of the special entry of cadets of about the age of eighteen who have completed their general education in the public schools or elsewhere. A number of such cadets, not exceeding 30 annually, will be admitted by competitive examination of selected candidates during this year and each of the succeeding three years. These will be sent to a naval establishment for a course of professional training before being distributed as midshipmen in the fleet, their services as midshipmen being somewhat shortened. The same subsequent career will be open to them as to officers who have entered through Osborne.

The boy was discharged, the court-martial being asked to assist his father to look after him if necessary.

"ALWAYS TELLING LIES."

Orlando Bridgeman, a 15-year-old Totten-ham boy, who was said to be "always telling lies," was charged at the Highgate Court with having attempted to commit suicide.

A police constable found him hanging over the railings of a house. He was groaning, and when asked the reason replied: "I have taken poison. I want to get rid of myself, as I am a nuisance to everybody." An amict was administered, and the boy was taken to the police station. But a police surgeon, who examined him carefully, found no trace of poison.

Another policeman said the boy was always telling lies; and the lad's father said he carried on in an extraordinary manner.

The boy was discharged, the court-martial being asked to assist his father to look after him if necessary.

PRESIDENT WILSON'S LUCKY THIRTEEN.

Let the superstitious cultivate number 13 if they want real luck, at least President Wilson finds it so, and any combination which by addition, subtraction or multiplication will produce the lucky number, give him the greatest delight. "Thirteen," he says, "have always been running through my life in connection with some good fortune." His name—Woodrow Wilson—contains just thirteen letters. It is said he dropped Thomas, his first name, in order to get down to lucky thirteen. For thirteen years he was professor in Princeton University, and then was elected its thirteenth president. He was nominated and elected President of the United States in 1912, which by the addition of its digits gives 13. The Electoral College met on the thirteenth of January, and he will be the 28th President, a combination of figures and letters totalling thirteen.

GERMANY AND CHINA.

QUESTION OF RECOGNITION.

LONDON, April 16. In the Reichstag, Prince Hoewenstein urged Germany to take advantage of political events in China and exercise cultural commercial influence there as Great Britain and America were already doing through schools and trade. Germany ought not to wait too long before recognising the Republic. Baron Richthofen said that Germany must strive to secure the open door in China.

Herr Jagow replied that Germany, as an old friend of China, greeted the new era with best wishes. The recognition of the Republic had nothing to do with the loan question. As soon as the first real President was elected Germany would go further into the question of recognition. Above all, reasonable financial policy must be pursued. He was confident that the German commercial world would overcome the crisis due to the general stagnation of business before and during the revolution.

A MEXICAN OUTRAGE.

ENGLISHMEN ATTACKED AND ROBBED.

LONDON, April 16. A telegram from New York states that Mexican rebels entered Diamant Camp, Conchos River, and demanded \$25,000. They threatened to kill the English engineers if the money was not forthcoming. They tied the English manager to his donkey and declared that they would burn him down the mountainside. Eventually they accepted a ransom of \$10,000, after which they looted the homes of the foreigners.

OBITUARY.

LONDON, April 16. The death is announced of Mr. John Westlake, K.C., L.C.D., a famous authority on International law.

THE BELGIAN STRIKE.

ECONOMIC AND RELIGIOUS WARFARE.

LONDON, April 15. The strike is proceeding with perfect orderliness. Up to the present there has only been one case of sabotage, which occurred at a leather factory. It seems that the strike is not only a battle between labour and capital but also to a great extent of industrial Walloon against the ultra-Catholic and Conservative Flemish districts.

WHITECHAPEL BY-ELECTION.

LONDON, April 15. Sir Stuart Samuel, who was unseated by reason of his firm's dealings with the Government of India, has been unanimously re-elected Liberal candidate for the Tower Hamlets division Whitechapel.

CALIFORNIA AND JAPANESE FEELING IN TOKYO.

TOKYO, April 15. The Bill passed by the Californian Legislature against Japanese immigrants is still the subject of much discussion in Japan. The President, Baron Shibuzawa, and others of the committee of the American-Japanese Association, the object of which is to promote good feeling between Japan and the United States, has visited the Foreign Office several times in connection with the matter. Japanese residents in America have also sent petitions by cable to the Foreign Minister in Tokyo.

GENERAL NOGTS RESIDENCE CROWDS OF VISITORS.

ALLEGED ASSAULT OF GERMAN OFFICERS.

LONDON, April 16. The German Ambassador at Paris has asked for some explanation regarding certain occurrences on Sunday at Nancy, when some Germans, supposed to be officers, were reported to have been mobbed and assaulted, and were obliged to take refuge in a railway station.

The Government replied that they were awaiting an official report of the facts.

THE DANGER OF CHAUVINISM.

LATER. A telegram from Berlin states that at the opening of the Reichstag, Herr Jagow said that should the report from Nancy be confirmed it would be most regrettable, and would furnish additional evidence of the influence of Chauvinistic agitations that might exercise the public mind to its danger.

OFFICIAL EXPLANATION FROM NANCY.

A telegram from Paris states that official information from Nancy states that the incident is greatly exaggerated. Some students, it appears, at the Military College whistled and joked a three Germans, who were accompanied by two ladies. The students followed them to a cafe and then to the railway station, persisting in their pleasantries. The students were "slightly excited" and did not realise the bad taste of their conduct.

KING ALFONSO'S GALLANTRY.

LONDON, April 16. A telegram from Madrid states that the gallantry and coolness displayed by King Alfonso when attacked on Sunday has appealed strongly to the chivalrous Spaniards, who recall that he displayed the same qualities on the occasion of two previous attempts being made on his life. The affair has greatly increased the King's popularity with all classes.

THE POPE'S CONDITION.

LONDON, April 16. The Pope is making satisfactory progress.

TURCO-BALKAN WAR.

TEN DAYS' ARMISTICE ARRANGED.

LONDON, April 15. An armistice of ten days has been concluded between Turkey and the Allies.

ARMISTICE REPORT PREMATURE.

TRUCE DECIDED UPON.

A telegram from Constantinople states that the report of an armistice is premature, but that there is good grounds for believing that the Turkish and Bulgarian commanders have already broached the question, and that some form of truce has already been decided upon, which it is expected will be the precursor of a definite suspension of hostilities.

SUFFRAGETTE TERRORISM.

THE BANK OF ENGLAND BOMB.

LONDON, April 15. Hatpins found at the Bank of England point to the bomb having been placed by suffragettes. Owing to their suspected designs, extra police have been stationed at the Bank lately. The police think that the bomb would have done little damage, though it might have seriously injured any persons in the neighbourhood when it exploded.

M.P.'S RESIDENCE BURNED.

Suffragettes have burned St. Leonard's, the residence of Mr. De Cros, M.P. The damage is estimated at £6,000.

BANK OF ENGLAND CHANGES.

LONDON, April 16. Mr. Walter Cunliffe, Deputy-Governor of the Bank of England, has been appointed Governor in succession to Mr. Alfred Clayton Cole. The new Deputy-Governor is Mr. R. L. Newman, who has been a Director of the Bank since 1896.

CHINESE NEWS.

LONDON, April 15. In connection with the recent political assassination at Shanghai railway station, the President had appointed Chu Shi Chang to negotiate at Tientsin with the German Consul there for the handing over of the abounding official.

The four big political societies have been discussing the question of amalgamation. No definite decision has yet been arrived at, but further meetings are to be held.

The President has given his sanction to a measure to nationalise all Chinese subjects 300,000 Koreans in the neighbourhood of Kirin, Mukden and the Yalu River valley.

SHANGHAI, April 15.

The German Consul has decided to hand over to the Chinese authorities for trial the prisoners in custody on charges in connection with the murder of the Chinese ex-Minister recently.

Peking, April 16.

The Governor of Tsingtao has refused to hand over Hung Shute Chao, in the absence of proof. Hung has been allowed bail.

The German Minister at Peking has informed the Foreign Department that Germany will recognise the Republic immediately after America does so.

ALLEGED THEFT OF LETTERS.

At the Magistracy this afternoon before Mr. Melbourne, A. F. Don Remedios was charged on remand with the larceny of press copy business letters and a private telegraph code, the property of Henry Cruz & Co.

Mr. C. G. Alabaster, instructed by Mr. Leo D'Almada, prosecuted; and Mr. F. C. Jenkins, instructed by Mr. Crewe, defended.

William Knight, a detective, deposed to executing a search warrant on March 18 at the defendant's room at the Grand Carlton Hotel. He found the telegraphic code and some copy letters and extracts from letters in a box underneath the bed. Further letters were found in a chest of drawers. Defendant said the letters were his own handwriting.

In reply to Mr. Jenkins, the witness said that he was assisted in the search by the defendant.

The first witness in the case was recalled by Mr. Jenkins, and stated that he told Mr. Cruz about the taking of the press copy letters on March 3d. Mr. Cruz said "All right, let him look at the books." On March 18th Mr. Cruz asked witness who had cut the papers from the book, and because Mr. Cruz told him it was all right, he thought it did not matter. Witness did not see any paper cut from the book, but saw the defendant putting home press-copy letters in his pocket.

After further evidence had been taken the case was adjourned.

PENDING APPEAL.

A FAIR REACHING DECISION.

Before Chief Justice Sir William Rees Davies, K.C., and Mr. Justice Kemp, Puisne Judge, in Appellate Jurisdiction of the Supreme Court this morning, Mr. F. C. Jenkins made an ex parte application in the master in which the Kwong Heng firm are appellants and Chan Wo the respondent. The application was for leave to appeal against a judgment of Mr. Justice Kemp delivered on April 9 in Summary Jurisdiction, the ground being that such judgment is erroneous in point of fact and contrary to the weight of evidence given at the trial.

Mr. Jenkins, who was instructed by Mr. Leo D'Almada Castro, said in the original action judgment was given for plaintiffs and the defendants, the Kwong Wo firm, were asking leave to appeal. The firm engaged the Chan Wo firm to remove a large quantity of earth from one part of the Colony to another, and the contract stated that the remuneration for the removal was to be at the rate of \$8 per 120 baskets. The work was carried out and was tallied, but it was tallied a piecemeal and not as baskets, and whole results being that 13,477 piculs were carried. The whole dispute before the Puisne Judge was whether or not a picul in this case was identical with a basket, or was two baskets. The plaintiff having carried 13,000 baskets said a picul was two baskets and therefore he was entitled to be paid double what the defendant, who contended that a picul was one basket, said he was.

The Chief Justice asked if there was any point of law in dispute?

Mr. Jenkins replied that the points in dispute were purely of fact, and turned on what might be called expert evidence. The decision, he added, was rather far-reaching, as this sort of work was very common in the Colony.

Their Lordships granted leave to appeal and extended the stay originally granted.

Decision to be reviewed.

In the Summary Court this afternoon Mr. Justice Kemp mentioned that he intended, in accordance with notice sent to the parties, to review his decision in the case in which Messrs. Lenley and Co. as plaintiffs, claimed from the New Mow firm, of 144, Connaught Road Central, £1,000 as damages for alleged breach of contract. The claim arose out of a transaction in wood oil, and judgment was given for defendants with costs.

His Lordship intimated that as he was anxious to give judgment before Mr. Potter, counsel for the defence, left the Colony he had to review the evidence in so short a period that he had not time to read it all; and when he came to write his judgment he found that his recollection of a material point was at fault, but coincided with Mr. Potter's contention.

The case will be re-opened on Thursday next at 11 o'clock.

Counsel: For the plaintiffs, Mr. F. C. Jenkins, instructed by Mr. Dennis, of Messrs. Denys and Bowley; for the defence, Mr. Eldon Potter, instructed by Mr. Davidoff, of Messrs. Hastings and Hastings.
